

Unisex ring-sizer

There are a few options to determine your finger size and order your ring.

The most reliable one is of course to get a professional jeweller to measure your finger.

However, if you don't have that opportunity, you can also use the method described below :

In order to do this, print this page scaled to 100%.

Beware, before printing your ring-sizer, don't forget to check that, in the print options, the option « put to page scale » is set on « NO »

The ring sizer needs to be printed on an A4 sheet.

To give us the correct information, place a ring that fits well and measure it.

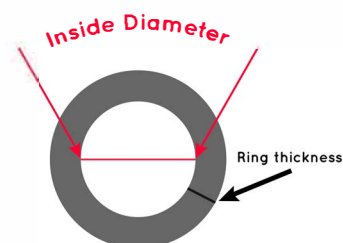

Place your ring on the printed sheet, and look for the circle which corresponds perfectly to the inside diameter of your ring. The cercle printed on the sheet need to be precisely against the inside of the actual ring. The numbers refers to your ring size.

For a double ring, repeat this procedure according to which 2 fingers you wish to wear this ring on.

This chart is provided as a guide..

If you wish to have precise measurements, please see a professional jeweller.
